Recognising the size and enormous diversity of Africa, our approach to providing legal services across the continent is intended to offer on-the-ground advice in the countries that matter for our clients. Our presence in Africa is always evolving to meet the changes that are shaping the future of this vast continent.

Currently, we have our own offices in six African countries: Kenya (Nairobi), Mauritius (Moka), South Africa (Cape Town, Durban, Johannesburg), Tanzania (Dar es Salaam), Uganda (Kampala) and Zambia (Lusaka).

We work closely with our Bowmans Alliance firms in Ethiopia (Aman Assefa & Associates Law Office) and Nigeria (Udo Udoma & Belo-Osagie). These are two of the leading corporate and commercial law firms in their jurisdictions.

We will be increasing our footprint in Africa over the next few years. The growth reflects our clients’ interest in Africa and their requirement to be involved in the continent.

On the global front, Bowmans has long-standing and excellent relationships with a range of international law firms with whom we often work on Africa-focused client mandates. We are also a member firm of Lex Mundi, a global association of more than 160 independent law firms in all the major centres across the globe. Lex Mundi gives us the ability to connect our clients with the best law firms in each of the countries represented.

We have a consistently high calibre of practice in Africa. In 2021, we won significant accolades, including three IFLR Africa Awards including National Firm of the Year for South Africa and for Zambia. At the 2021 Africa Legal Awards, our practice won five practice awards, more than any other law firm.

Our East Africa Intellectual Property Practice

With a robust historical economic growth rate and a middle class population of over 35 million, East Africa remains the investment destination of choice for investors seeking to expand operations into Africa. The entry of multiple brands into the region has made the ability to register and protect the rights that investors and clients obtain in their products, services and brands an essential success component in the business environment.

Securing a knowledgeable and experienced legal adviser who understands the local complexities with the appropriate track record in navigating through the legal landscape is pivotal to this success.

Working as one team coordinated across three jurisdictional offices, our unparalleled dedicated East Africa Intellectual Property (IP) Practice handles:

- IP litigation focusing on trademarks, patents, designs and copyright infringement;
- multi-jurisdictional anti counterfeit actions/ raids;
- Trademark oppositions and expungement matters in Kenya, Tanzania and Uganda;
- Design and patent revocations;
- Brand migration advice;
- IP due diligence;
- Franchising; and
- Competition and IP opinions.

We act for clients both locally and internationally under the Madrid and ARIPO systems of registration and help them with national protection in other countries worldwide through a network of associate agent law firms.

Our clients include leading multinationals from around the world within the financial services, manufacturing, pharmaceutical and healthcare, and technology, media and telecommunications sectors.
